ABOUT US

General Overseer Rosemary Oche and a small group of professionals decided to stop watching and start acting. They formed Enthroned Initiatives with three commitments: build real programs (not performative charity), partner with communities rather than parachuting in, and be radically transparent about every naira and dollar spent.

From our founding through 2025, our programs were personally funded by our founder. In 2026 we registered as a 501(c)(3) so supporters can contribute, and every donated dollar is published on our public transparency ledger.
